COPPER ALLOYS

High Pressure Rods

Feinrohren GREEN copper tubing, available in the 80 and 120 bar versions, is manufactured and indelibly marked in full compliance with the European standard EN 12735-1.
The Feinrohren GREEN 80 and 120 bar rods are available in a wide range of diameters in inches with lengths from 4 or 5 m, in the hard and annealed physical state.

Application sectors

- **Air conditioning**
- **Refrigeration**

Custom solutions

Study and feasibility for the manufacture of copper pipes (and configurations) at the specific request of the customer, based on application requirements.

Standard

Standard: EN 12735-1, EN 14276-2, EN 378-2, ASTM B 111

Cu-DHP copper pipe in hard and annealed rods.

It is a proven, safe and economical alternative to $CuFe_2P$. The processing waste of GREEN 80 and 120 bar is 100% recyclable. Compared to $CuFe_2P$, the degree of total cleanliness is well below the limits imposed by the reference standard.
It is a product designed for refrigeration and air conditioning systems with medium and high pressure CO_2 gas.
